I'm a 20-year-old Computer Programming student at Niagara College Toronto with a passion for coding, problem-solving, and learning new technologies. I am committed, energetic, and eager to apply my technical knowledge to deliver impactful digital experiences. Constantly seeking opportunities to broaden my understanding, I am driven to create user-friendly, visually appealing, and responsive applications.

## PROJECTS

### PROJECT 1: NEPAL - REAL HEAVEN

- Developed a fully responsive website using HTML, CSS, and Flexbox, ensuring seamless user experience across devices.
- Implemented clean and minimalist design principles to create a visually appealing interface while optimizing load times.
- Showcased the beauty of Nepal's landscapes through engaging, well-organized content and optimized media elements.
- Utilized modern web standards to ensure fast loading times and improved performance for all visitors.
- Deployed the website on Netlify using GitHub integration, managing continuous deployment and version control.

### PROJECT 2: THE HIRING HUB

- Built a recruitment platform using Node.js and MongoDB, streamlining talent acquisition for community sponsored project.
- Integrated shortlisting features, reducing manual effort in the candidate selection process.
- Designed and developed user-friendly dashboards for HR teams and candidates, enabling efficient job postings and application tracking.
- Implemented automated onboarding processes, improving operational efficiency and enhancing the candidate's experience.
- Collaborated on the development of key features like performance tracking and job sourcing using RESTful APIs.

## SKILLS

- **Frontend Development:** HTML, CSS, JavaScript, React
- **Backend Development:** Node.js, Express, RESTful APIs
- **Database Management:** MongoDB, Mongoose
- **Version Control:** Git, GitHub
- **Problem Solving:** Algorithm Design, Debugging, Optimization Techniques

## EDUCATION

**ENROLLED (2023 May to 2024 Dec)**

**Diploma in computer Programming, NIAGARA COLLEGE TORONTO**
